## Trade at a Glance

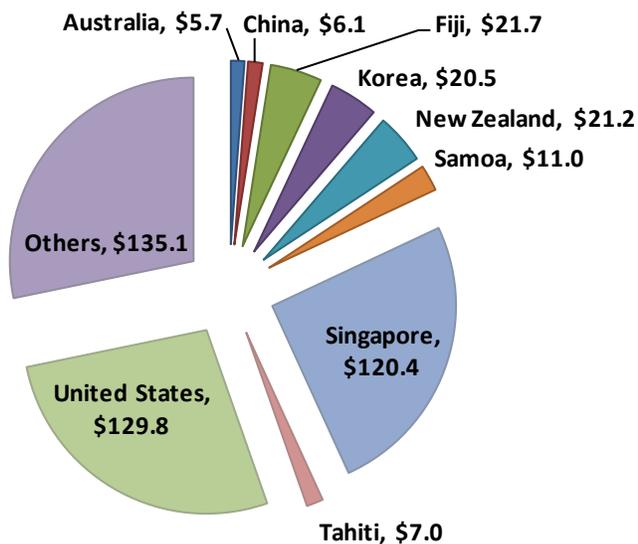

American Samoa Value of Imports and Exports 2007-2013

Source: Department of Treasury, Customs and Excise Division, U.S Census Bureau, FT895 Reports

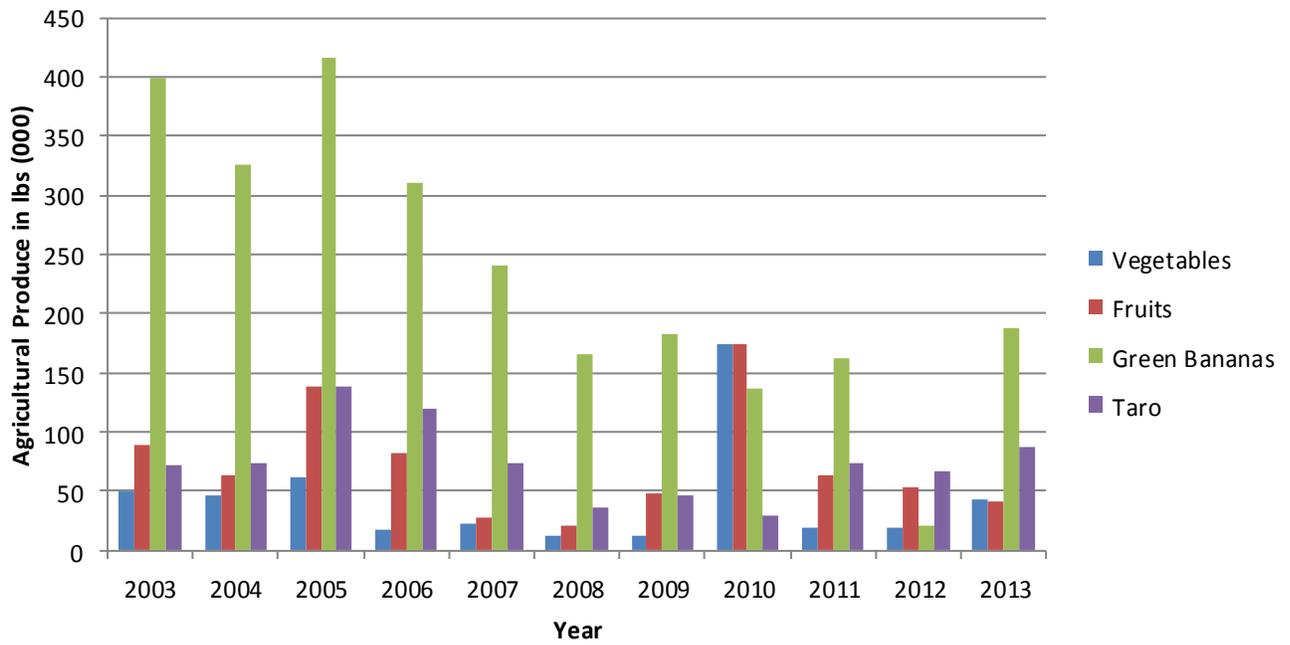

The above chart shows in the last seven years, exports remain significantly higher than import totals except for years 2010 and 2011. Canned Tuna accounts for more than 95 percent of total exports consistently for all seven years. American Samoa currently exports to the US. Imports however, are shipped to the Territory from diverse trading partners that include US, South Korea and New Zealand.
